

# Medical Benefit For Kathy Stedjee

**Saturday, March 20<sup>th</sup>, 2010**

**The River Rail in Shiocton 1 - 6 PM**

We are in desperate need of your assistance for a Celebration of Support event.

Kathy Stedjee is from the Black Creek area and is a 56 year old wife of Lars, mother of two sons and grandmother of four grandsons who is diagnosed with Alpha 1 Antitrypsin deficiency (AAT). Kathy has been housebound on oxygen for the last 16 years. UW Health has determined that Kathy's only chance at a normal life is to have a lung transplant

The funds raised will be used for Kathy's medical needs for a minimum of six months, post transplant recovery and for her family support during the transplant. Lars will need to be with Kathy for two months during and after the surgery in Madison and will not be able to work during much of this time.
